SOUTHEAST ALABAMA FEEDER CATTLE MARKETING ASSOCIATION (S.A.F.E)

SALE – Thursday, August 3, 2023 6:00 P.M. (Central)

Liston Clark, S.A.F.E President
399 Corcoran Road
Eufaula, Florida 36027
Telephone: 334-740-1516

Thank you for your interest in the 2023 SAFE sale cattle. The 29TH Annual S.A.F.E Feeder Cattle Sale is scheduled for Thursday, August 3, 2023, 6:00 p.m. (Central), from the Wiregrass Research & Extension Center in Headland, Alabama. We are offering approximately 2,250 head of premium, quality feeder cattle for sale.

S.A.F.E members accepted health guidelines to vaccinate their feeder calves against *Clostridial* diseases, *Pasteurella*, IBR/PI3/BVD, BRSV and *H. somunus*. The health protocol is to vaccinate and booster against these important diseases, except where a single dose is consistent with label directions. Health processing (ALA-VAC) sheets are provided for the sale cattle of each participating SAFE producer.

The mission of the association has always been to produce high-quality, fast-growing cattle, then add value with a quality health program (S.A.F.E as the name implies). We strive to offer cattle that are uniform, farm fresh and healthy. We believe our cattle are the very best feeder cattle in the Southeast (across America, for that matter). We are so confident in the quality of our cattle, that **every calf, ever sold** in the Alabama Annual Summer Feeder Calf Sale (29TH Annual) has been tagged to identify his producer's farm.

We always welcome you to visit our farms and appraise the quality of the cattle for yourself. Please contact **John Moseley, Jr., (229-308-6355 cell)** to plan a tour or gain additional sale information.

Please note the sale terms and conditions, as listed within this 2023 sale catalog. The catalog also provides "ALA-VAC" health sheets, descriptions of cattle and detailed lot information specific to each SAFE producer in the 2023 sale.

Thanks again for giving SAFE cattle your consideration. Auction bids are accepted, both in person and via telephone. **Please contact Will Moseley, at 229-308-3452 prior to sale day to participate in the auction via a telephone conference call. Please contact Rickey Hudson, Regional Extension Agent, at 334-726-6814 with questions about the sale listings or if you need assistance to participate in the sale. Sale night emergency contact number is 229-881-2705 – Patsie Cannon.**

Sincerely,

Liston Clark

Liston Clark, S.A.F.E President

SOUTHEAST ALABAMA FEEDER CATTLE MARKETING ASSOCIATION (S.A.F.E) 29TH ANNUAL SALE

Thursday, August 3, 2023, 6:00 p.m. (Central Time)

General Information, Specific Terms and Conditions

- 1. Consignors should adopt the S.A.F.E health regimen to provide calves with an immunization and a booster as labeled, for Clostridium (7 or 8-Way), Histophilus somni, IBR, PI₃, BRSV, BVD (Type 1 & 2), Mannheimia Haemolytica (single dose, if so labeled) and treatment for internal parasites. Each consignor will provide a copy of his completed “ALA-VAC” health sheet to the buyer of his cattle. Health sheets must be submitted by July 10th or sale information may not be included in the SAFE sale catalog.**
- 2. The Southeast Alabama Feeder Cattle Marketing Association assigns to each consignor, a specific farm number (located inside the Alabama outline on each calf tag) to source verify these cattle. This, along with the S.A.F.E logo on the tag is the consignor’s signature of pride in his cattle and their performance and a buyer’s assurance of quality. Sale calves shall not be shipped without S.A.F.E ear tags.**
- 3. The board auction location is Wiregrass Research & Extension Center in Headland, Alabama (167 State Highway 134 E.). The auction begins promptly at 6:00 p.m., Central time, on Thursday, August 3, 2023.**
- 4. Moseley Brothers Cattle, LLC (John Moseley, Jr. & sons) will assist the Southeast Alabama Feeder Cattle Marketing Association (S.A.F.E) as marketing agents. The officers and members of S.A.F.E manage and execute this board auction.**
- 5. This board auction accepts bids from persons in attendance and by telephone communications. Anyone wishing to participate in the auction via telephone should contact John Moseley, Jr., (229-308-6355) or Will Moseley (229-308-3452) before sale day to make arrangements. The emergency SALE NIGHT telephone number is 229-881-2705 (Patsie Cannon, Cannon Marketing).**
- 6. The auction order is steers first, heifers last. Within the sexes, the general auction order is larger and heavier lots first, smaller and lighter lots follow.**
- 7. The auction determines the highest bidder for each lot. The highest bidder buys the lot, unless the consignor immediately exercises his “NO SALE” option. If a consignor elects to “NO SALE” his cattle, he agrees to pay the highest bidder the sum of one dollar (\$1.00) per head for every animal offered in the lot (due sale night). In addition, the consignor agrees to pay the Southeast Alabama Feeder Cattle Marketing Association the sum of one dollar and fifty cents (\$1.50) per head for every animal offered in the lot.**
- 8. Consignors and the marketing agents will cut out nonmerchantable cattle prior to the sale. Only injured cattle will be sorted out on loading day, no other sorting on loading day is permitted.**

General Information, Specific Terms and Conditions (Continued)

9. **Consignors strive to list accurate delivery weights for their sale lots based on projected calf growth, estimated climatic conditions and a specific delivery date. Price slides can be used to protect against weight variances by adjusting the final bid price (sale price), which allows for a more accurate calf value for transactions between a buyer and seller based on the actual delivery weight (including shrink).**

Consignors may elect to offer a sale lot with a 2-way (up and down) price slide. The high bidder on such a sale lot has the option to buy the lot with the 2-way slide or buy the lot with no slide. The decision must be declared and announced before the auction proceeds forward. This 2-way slide will adjust the final bid price up or down at fifteen (15) cents per pound (\$15/cwt) for 500-weight lots, ten (10) cents per pound (\$10/cwt) for 600-weight lots and eight (8) cents per pound (\$8/cwt) for 700 & 800-weight lots at delivery without a grace weight window. If the delivery weight (actual with 2% shrink) differs from the sale weight (the listed estimated delivery weight), then the final bid price is adjusted either up or down, respectively.

Consignors may elect to offer a sale lot with a 1-way (up only) price slide. This 1-way slide will adjust the final bid price down at fifteen (15) cents per pound (\$15/cwt) for 500-weight lots, ten (10) cents per pound (\$10/cwt) for 600-weight lots and eight (8) cents per pound (\$8/cwt) for 700 & 800-weight lots for heavier cattle at delivery without a grace weight window. If the delivery weight (actual with 2% shrink) exceeds the sale weight (the listed estimated delivery weight), then the final bid price is adjusted down, accordingly. No bid price adjustments are made for under-weight lots.
10. **The weighing of cattle on truck or carrier at the nearest legal scale is the method to gain the gross pay weight (actual weight). A gross and tare weight for each load is required. At load-out, a 2% pencil shrink of actual on the truck weight yields the final pay weight. Cattle weighed on the ground use a 3% pencil shrink to gain final pay weight (unless otherwise noted). The weighing of individual lots are required.**
11. **The seller and buyer negotiate the date and time for cattle load-out. There is no Sunday loading of cattle. In advance of loading cattle, a minimum of 48 hours of notice is required to allow for proper arrangements. Sellers do record the tag number of the truck and CDL number of the driver. The listing and grouping of delivery dates will follow the auction.**
12. **Immediately following the auction, a binder fee of \$25.00 per head will consummate acceptance of sale price and terms of sale. Upon payment of binder fee, the seller and buyer exchange a signed, triplicate contract (one copy for the association). The balance of the sale is due after weighing cattle at load-out. The completion of financial transactions to the satisfaction of the seller is necessary prior to the final movement (shipping) of any cattle.**
13. **Legal title for cattle passes from producer (seller) to the purchaser with the completion of all financial transactions satisfactory to the seller. Liability for cattle passes to purchaser or his carrier when cattle are loaded.**
14. **The Southeast Alabama Feeder Cattle Marketing Association reserves the right to make additions, revisions and/or amendments to these terms and conditions. Official announcements made from the auction stand during the sale will supersede these listed terms and conditions.**
